

OHIO WESLEYAN UNIVERSITY

Clery Fire Report for Residential Buildings 2017

Ohio Wesleyan University Public Safety Clery Fire Report for Residential Buildings 2017

Smoking Policy:

Smoking is prohibited in all University buildings and areas immediately adjacent to doors and windows. (Ohio Revised Code Chapter 3794 – Smoking Ban)

The following are Fire Safety policy violations:

Arson: Arson is knowingly setting fire to or burning property. The University holds zero tolerance for arson committed by students or their guests. Alleged acts of arson will be investigated and punished to the full extent of the law. Arson is a felony offense. Criminal penalties include prison and substantial fines.

Tampering with Life Safety Equipment: Tampering with life safety equipment is strictly prohibited. Life safety equipment includes fire alarm systems in the residential living units, fire alarm pull stations, fire extinguishers, and smoke detectors. Misuse of this equipment endangers lives, at worst, such as when repeated false alarms lull the community into a false sense of security, and inconveniences significant numbers of the community, at best, such as when mass evacuations are required by a false alarm. False alarms also endanger the larger Delaware community by diverting the city's firefighting resources when they might be needed for an actual emergency elsewhere.

The University views arson and tampering with fire safety equipment as some of the most serious violations in the Code of Conduct.

Failure to Evacuate: When an alarm sounds, all occupants must immediately vacate the building. This includes all residences and academic buildings. Drills will be conducted periodically to ensure knowledge of evacuation procedures, and staff members will check rooms for compliance.

Possessing and/or Using Flammable Materials: This includes, but is not limited to, candles (lit and unlit), incense, electric skillets, hot plates, fireworks, gasoline, paint thinners, and lamp oils. Please review the description of Electrical Appliances in the Residential Life Policies chapter of the Student Handbook.

Possessing Halogen Products: Halogen products (e.g., lights, etc.) are not permitted because of the fire hazard they pose.

Dangerous Decorations: Hallway or room lights are not to be covered at any times. No live trees. Only small artificial trees and small bulb light sets are permitted. No electrical wiring (e.g., light sets, extension cords, etc.) is to be placed on the exterior of the rooms (doors or windows).

Destruction or Removal of Door Documents: Ohio State law requires all University residences to have a Fire and Safety document on the back of each door. These documents are to be in plain sight. Removal or destruction of a door document is a fire safety violation.

Students and organizations will be subject to charges of Failure to Comply for failing to follow orders from University officials concerning fire safety issues.

Violations of these rules will be forwarded to The Office of Student Conduct, which will impose appropriate sanctions for those found to have violated these rules.

All fires, no matter how small, must be immediately reported to a member of the Residential Life staff and the Public Safety Office 740-368-2222

Prohibited Appliances:

Due to the risk of fire when using the following electrical appliances, students are prohibited from possessing and/or using them in residential facilities.

- Any electronics/electrical appliances not clearly marked as UL approved
- Any appliance with an exposed heating element or hot surface
- Air-conditioners
- Candles (including candle warmers/electric potpourri pots/scented oil burners)
- Coffeepots (except when used in SLU/theme-house kitchens)
- Corn poppers (except when used in SLU/theme-house kitchens)
- Electric frying pans/griddles/devices
- Extension cords (all types)
- George Foreman grills
- Halogen lamps
- Hot plates
- Hot water heaters
- Space heaters
- Sun lamps
- Toasters (except when used in SLU/theme-house kitchens)
- Toaster Ovens
